## RESEARCH NEWS

Since 2004, Asia Research News has been helping Asia's universities and research institutions promote new research findings and academic expertise to a wider international audience, including the media. Our services include specialist writing and targeted media distribution. Our news portal, [www.researchsea.com](http://www.researchsea.com), helps connect Asian researchers with the media and the public. We also publish the annual magazine, Asia Research News magazine, which highlights innovative and significant breakthroughs from Asia.
